

SUPPLEMENTAL MATERIAL

Fabbri et al., <http://www.jem.org/cgi/content/full/jem.20131448/DC1>

There are three supplemental tables, provided as Excel files. Table S1 shows clinical and biological features of the 9 CLL-RS discovery cases; Table S2 reports mutations identified by WES in the discovery and screening panels; and Table S3 illustrates the segments (regions) of tumor-acquired CN alterations identified in the discovery panel and in additional six paired and clonally related CLL-RS pairs.
